Description
Within walking distance of the centre of Pano Arodes, this field covers 12,312 m², with Kathikas a short drive away. It lies in a touristic zone, which allows homes, hotels or tourist villages of up to two floors. Water, electricity and telecommunication can be connected.

The land has direct road access, with a long frontage on a public dirt road. Undeveloped plots and some homes surround it. Rather irregular in shape, the field combines a flat section with ground that slopes gently.
