Description
Set in Paralimni, a short drive from the town centre and from Protaras, this agricultural field covers 20,561 m² of relatively even ground. It is irregular in shape and lies among undeveloped parcels and some residential developments.

The zoning is agricultural, so the land lends itself to farming and planting. It has no direct road access. Water, electricity and telecommunication services could be connected to it. This is a large piece of farmland with workable ground for cultivation.
