

For Sale, Land, Field, Nicosia, Lympia

Lympia's village centre is close by, and the Nicosia–Larnaca...

For Sale : **€ 365,000**

Description
Lympia's village centre is close by, and the Nicosia–Larnaca motorway is within easy reach. Together they give this residential field a setting that balances village surroundings with good links to the wider island. Around it, open parcels of land sit beside homes already built, in a neighbourhood that is still taking shape.

The land is large, with a fairly regular outline and a gentle slope across its surface. It fronts registered roads on two sides, giving it direct road access. Electricity, water and telecommunications can be connected.

The field is zoned for residential use and has room for a home of up to two floors. Picture the gentle fall of the ground guiding where a house might stand, with the open land around it and the village within easy reach. The sale is for a 4/5 share of the field.

For anyone with plans for a home in Lympia, this is a sizeable piece of residential land with two road frontages and the village close at hand.
