Limitless Potential in Zone H3

Primed for a refined family residence, the property falls within Residential Planning Zone H3. In the 2026 property market, this zone is highly favored for low-density, high-quality living. Key building parameters include:

Generous Density: A 60% building density allows for approximately 304 m² of internal living space, perfect for a spacious three or four-bedroom villa.

Balanced Footprint: With 35% coverage, you can maximize your home's ground floor while retaining ample room for a private garden or pool.

Defined Profile: The allowance for two storeys (8.3m height) ensures your home enjoys the fresh air and traditional skyline of the village.

Location & Neighborhood Benefits

Situated just 25 minutes from Nicosia's city center, Psimolofou offers an ideal work-life balance. You are minutes away from the Grammar School, local bakeries, and pharmacies, while being a short drive from the Lakatamia and Tseri commercial hubs. The village provides a safe, family-oriented environment with easy access to the Machairas forest foothills for weekend getaways.
