Between the heart of Mazotos and the church of
Panagia Petou...

For Sale : **€ 365,000**

Description
Between the heart of Mazotos and the church of Panagia Petountas lies this large field of 12,208 m², on residential land in a Larnaca village where the beaches are only a short drive away. Around it, homes sit alongside open parcels, giving the area a settled residential character while open land remains all around.

The residential zoning sets a clear direction: room for a home of up to two floors, with the potential to connect water, electricity and telecommunications. The generous size of the land leaves plenty of freedom to plan a house and its setting just as you picture them. The land has no direct road access.

Everyday village life is never far away, with the village centre and its cafés a short drive from the land. Imagine mornings spent in Mazotos and afternoons by the sea, with the relaxed pace of a Larnaca village shaping the days in between.

A sizeable piece of residential land between village and church, with the beaches close by, where a home of your own could take shape.
