

For Sale, House, Nicosia, Lakatameia, Agios Nikolaos, 939m²

In a residential neighbourhood of Agios Nikolaos,
Lakatameia...

For Sale : **€ 325,000**

Description
In a residential neighbourhood of Agios Nikolaos, Lakatameia, where Nicosia is always within easy reach, this semi-detached house comes with a sizeable plot of its own right beside it. The house is unfinished.

The layout is easy to picture. On the ground floor, an open-plan living and dining area lets everyday life flow from one space to the next, with the kitchen alongside and a guest toilet for visitors. Upstairs, three bedrooms offer room for the whole household, one with its own en-suite, and a further bathroom serves the others.

Next door, an empty plot of 784 m² belongs to the sale, adding a generous stretch of ground to the house. Around it, homes line the streets of a settled residential area. Schools, supermarkets and shops are a short drive away, and neighbouring Strovolos is close at hand for everything else the capital has to offer.

The sale is of a 939/1111 share of the property. A three-bedroom house with land at its side, in a neighbourhood so well connected to Nicosia, is a setting worth getting to know.
