For Sale : **€ 225,000**

Description
On the edge of Dali, in the Panagia Evangelistria quarter, this level field of 9,700 m² sits among industrial developments, in a part of the area already given over to business and industry.

The ground is flat and even, with an irregular outline. Most of the land lies in an industrial zone, where business use is the natural fit, while a smaller part falls within a protection zone. Water, electricity and telecommunications can be connected. The land has no direct road access.

Beyond the field, Dali offers a pleasant mix of everyday life and history. Latsia is a short drive away, and the ancient site of Idalion is close by too, a reminder of the long story of this corner of the Nicosia district.

The sale is a 1/2 share of the field. Level industrial land in an established industrial setting in Dali, well worth a visit.
