For Sale : **€ 220,000**

Description
Farmland and a scattering of homes frame this large field in Agios Ioannis, with the heart of the village a short drive away. It is a landscape-led setting, where open agricultural parcels sit alongside the first residential houses of the area, and the green nature spot of Korakas is also close at hand.

Covering 5,108 m², the land lies in a residential zone, with room for a home of up to two floors. Road frontage along one side gives it direct road access, so reaching the plot is simple from the start.

Picture a family home rising here, with farmland as its neighbour and the village life of Agios Ioannis within easy reach for daily errands, a coffee or the school run. The size of the plot leaves generous room to plan the house around the way you want to live, rather than the other way round.

A sizeable piece of residential land in a rural corner of Nicosia district, ready for the home you have in mind.
