For Sale : **€ 211,000**

Description
Two adjoining fields lie just outside the village of Pigenia, in the Nicosia district. Together they cover 27,426 m², and they border a road, so the land has direct road access. Forest land and undeveloped parcels surround the fields. The village centre and Kato Pyrgos are each a short drive away.

The two parcels fall in different zones. The first is agricultural land, suited to farming and planting. The second lies in a residential zone, with room for a home of up to two floors.

This is a large holding in two parts that brings together farmland and a residential parcel.
