

For Sale, Land, Plot, Nicosia, Strovolos, Chryseleousa

Set among homes in Chryseleousa, in the heart of Strovolos,...

For Sale : **€ 218,000**

Description
Set among homes in Chryseleousa, in the heart of Strovolos, this residential plot sits where much of daily life happens on foot. Makario Stadium is a short walk away, and so are local schools, so match days and the morning school run both stay close to home.

The land measures 546 m², has a neat rectangular shape and fronts the road directly. Water, electricity and telecommunication services already reach it, and the residential zoning allows a home of up to two floors.

Picture shaping a house to your own design here, with rooms planned around the way you want to live and a residential neighbourhood all around you. Instead of fitting your life into someone else's layout, you start from the ground and decide what each space becomes.

Room for a home of your own making, in a part of Strovolos where everyday comforts are never far away.
