Close to the heart of Pano Pyrgos, with beaches a short driv...

For Sale : **€ 220,000**

Description
Close to the heart of Pano Pyrgos, with beaches a short drive away, three adjacent parcels come together as one large stretch of residential land covering 10,370 m². The village centre lies only a little way off, and neighbouring Pigenia is a short drive from here.

Around the land, open undeveloped parcels sit alongside a few homes already built, giving the setting a calm village character rather than a crowded one. The residential zoning allows a home of up to two floors. There is room to picture a house here, with village life close at hand and the sea within easy reach for an afternoon on the beach.

The land fronts a mapped footpath that does not exist on the ground. Paphos International Airport is about 50 km away.

A sizeable piece of residential land, a village centre close by and the coast a short drive off. Pano Pyrgos brings all three together.
