For Sale : **€ 200,000**

Description
In an established part of Strovolos, counted among the most prestigious residential areas of Nicosia and home to many fine villas, this residential plot gives you the chance to build a home of your own.

The land is flat and even, with a neat, roughly rectangular shape and direct road access along one boundary. Its 653 m² leave room for a home over two floors, designed to your own specification, from the flow of the rooms to the way the house sits on its land. It is a simple site to picture: a family home taking shape among well-kept neighbours.

Everyday life stays close at hand. A senior school lies a short distance away, and the Nicosia–Limassol motorway is within easy reach, linking you with the city and the surrounding areas. Shops, cafés and a park are a short drive away when the day calls for them.

An appealing balance of setting, shape and convenience, waiting for the home you have in mind.
