Description
Village life sets the scene in Tochni, where this field in the Larnaca district offers room for a home of your own. Its residential zoning makes the purpose clear: a place to picture a house taking shape within a village community, with the everyday rhythm of local life around it.

Daily routines stay simple here. The village centre is a short drive away, and the village of Kalavasos is a short drive too, so there is more of the surrounding area to discover beyond Tochni itself.

A residential field in Tochni, waiting for your own ideas of village living. Make it yours.
