Just outside the village of Mazotos, between its homes and t...

For Sale : **€ 196,000**

Description
Just outside the village of Mazotos, between its homes and the sea, this field lies among residential developments and open parcels of land. The village centre, with its restaurants and cafés, is a short drive away, and so are the beaches along this stretch of coast. Larnaca International Airport is a drive away too.

The land is zoned for residential use, with room for a home of up to two floors. At 19,399 m², it is a large field with open ground around it and Mazotos close at hand. The land has no direct road access.

Picture a home here: mornings in a Cypriot village where life moves at its own pace, and the sea a short drive away when the afternoon turns warm. This is a setting where the coast and the village sit side by side. The sale is for a 1/3 share of the field.
