For Sale : **€ 187,000**

Description
Just beyond Louvaras, where village homes give way to open parcels of land, this large field lies in a residential zone with room for a home of up to two floors. It is a setting where village life stays close at hand and the countryside begins at the boundary.

The field covers 11,883 m² and fronts roads along two of its borders, so it has direct road access from two sides. Its shape is irregular and the ground slopes. Around it, undeveloped plots sit alongside residential developments, and homes are already part of the neighbourhood.

From here, the nature spot of Éloros and the neighbouring village of Kalo Chorio are both a short drive away, so walks in green surroundings and a change of village scene are easy to fit into the week.

A distribution agreement is in place. The sale is for a 1/2 share of the field.

A sizeable piece of residential land at the edge of Louvaras, with the village on one side and open land around it, it gives you space to imagine a home taking shape.
