Description
In the heart of Alethriko, right beside one of the village churches, this sizeable field sits among homes and open parcels of land. A medical centre is within walking distance, and the village centre is a short drive away.

The land covers 3,926 m², with an irregular shape and a gentle slope, and it has direct road access along one side. It lies in a residential zone, which allows a home of up to three floors. Water, electricity and telecommunications can be brought to the land.

Picture your own home taking shape here, with the familiar rhythm of village life all around you. A gently sloping, sizeable plot in a residential corner of Alethriko is well worth a visit.
