Drymou a li...

For Sale : **€ 165,000**

Description
Set just outside Lasa village, with neighbouring Drymou a little further on, this sizeable field brings village life within a short stroll. Homes already stand around it alongside parcels still waiting for their own story, giving the area a settled residential character.

The land lies in a residential zone, with room for a home of up to two floors. At 5,435 m², it offers generous ground to shape a house around the way you want to live, with space to place it just as you wish. Road frontage along two of its borders gives the field direct road access, so arriving home is straightforward from the start.

Everyday needs are close at hand, with supermarkets and schools a short drive away, and the villages of Thrinia and Milia within easy reach too. Lasa stays at the heart of it all, near enough that a walk into the village can become part of daily life.

An honest, uncomplicated piece of Lasa land, waiting for the home you have in mind.
