Close to the coastline and only a short distance
from the vi...

For Sale : **€ 185,000**

Description
Close to the coastline and only a short distance from the village centre, these two adjoining fields lie among open, undeveloped land in Kato Pyrgos. The setting is shaped by the landscape rather than by buildings, with the sea and everyday village life both close at hand.

The land is zoned residential, with room for a home of up to two floors. Its irregular outline and sloping surface follow the natural lie of the land and give the site an unpretentious, open character. The land has no direct road access.

Around it, the rhythm of Kato Pyrgos sets the pace: the coast nearby, cafés and shops in the village, and the neighbouring villages of Pano Pyrgos and Pigenia a short drive away. Further afield, the region opens up to the heritage of Gialia Monastery and the Cyprus Mufflon Enclosure. One of the two fields is offered as a 1/2 share.

Open land, the sea close by and a village at the heart of it all make this a setting to imagine a home by the coast.
