For Sale : **€ 156,000**

Description
Just outside Fyti, a short walk brings you to the village centre, its cafés and its restaurants. This residential field of 5,017 m² gives you a generous stretch of land on the edge of authentic Paphos village life.

The residential zoning offers room for a home of up to two floors. Around it lie open, undeveloped parcels and a few residential homes, so a house here would sit within a growing village neighbourhood. The size of the land leaves plenty of freedom in how you shape your plans.

Beyond the village, the neighbouring villages of Kritou Marottou and Milia are a short drive away, and so is Kannaviou Reservoir for time in nature. Schools, shops and everyday services are a drive away. Access to the land is by a right of way across the neighbouring parcels.

A large piece of residential land within walking distance of village cafés, waiting for the home you have in mind.
