For Sale : **€ 155,000**

Description
Pyla's village centre is only a short distance away, and the UCLan university campus is close by too. Between the two, this residential field sits among homes and open parcels still waiting for their turn, a setting where settled neighbourhood life meets open ground.

The land covers 12,041 m² and has an irregular outline and a smooth, gentle slope. Its residential zoning gives room for a home, with building of up to two floors permitted. Electricity, water and telecommunications can potentially be brought to the land. The land has no direct road access.

Picture the slope settling into the green and the roofs of the village around it, with the community's everyday rhythm close at hand. The sale is for a 1/2 share of the field.

Sizeable residential ground on a soft incline, a short step from the life of Pyla, waiting for someone to imagine what it could become.
