Description
Restaurants and cafés lie within walking distance of this residential field in Deryneia. It sits among homes and open parcels of land, in a part of the village where everyday life is already under way. Picture an evening stroll to a café table, then back to a home of your own design.

The land measures 983 m² and is zoned for residential use, giving room for a home of up to three floors. It has direct road access along one side, so getting in and out is straightforward.

When the weekend comes, Paralimni Lake is a short drive away, a natural spot for fresh air and a slower pace. The rest of the time, Deryneia's residential streets set an unpretentious rhythm for daily life.

This is a welcoming setting, a well-proportioned residential plot and the freedom to decide exactly what comes next.
