For Sale : **€ 150,000**

Description
Village life in Tsada is close at hand here, with parks and green spaces within walking distance and the village centre a short drive away. It is a setting where an everyday stroll can end among the trees, and where the rhythm of the village sets the pace of the day.

The field is a sizeable 4,571 m² in all and sits within a residential zone, so it offers room for a home of up to two floors. It has direct road access, with frontage along two of its borders, which makes the land straightforward to approach and to plan around.

Around it, homes stand among open plots of land, giving the neighbourhood a settled residential character while still leaving a sense of space between neighbours. It is a place to imagine a family home taking shape, close to the village yet with room to breathe.

The sale is for a 1/2 share of the field.

A residential plot with road access on two sides, a short walk from green spaces and close to the heart of Tsada.
