For Sale : **€ 136,000**

Description
Close to Louvaras village in the Limassol district, this residential field lies among open parcels of land and a scattering of homes. The village centre is a short drive away, and so is neighbouring Kalo Chorio, so everyday village life stays within easy reach.

The land is large and lies entirely within a residential zone, with room for a home of up to two floors. A registered road runs along two of its borders, giving the field direct road access and your plans a practical starting point.

Picture a home taking shape here, with open land still around it and the rhythm of Louvaras just down the road. Morning errands in the village and calm evenings back on your own ground could become the pattern of the days.

A distribution agreement is in place. The sale is for a 2/3 share of the field.

Residential land close to Louvaras, where a home of your own can grow out of village life.
