

For Sale, Land, Field, Nicosia, Pyrgos Kato

With the sea close by and the village of Kato
Pyrgos just be...

For Sale : **€ 130,000**

Description
With the sea close by and the village of Kato Pyrgos just beyond, this residential field of 2,678 m² offers a generous setting for a home. It suits anyone drawn to an authentic alternative to city or resort living, with the coast as a near neighbour.

The land lies in a residential zone, with room for a home of up to two floors. Around it, open undeveloped parcels sit alongside several residential developments, giving a setting that balances space with homes already in place. The land has no direct road access.

Imagine planning a home where the sea is part of everyday life, with the village centre, its shops and cafés a short drive away for daily needs. The neighbouring village of Pano Pyrgos is also within a short drive, and further afield the wider region holds heritage sites such as Gialia Monastery.

A large residential plot with the sea close at hand and village life within easy reach, waiting for a home to give it shape.
