For Sale : **€ 120,000**

Description
Palaiometocho, in the Nicosia district, sets the scene for this industrial field: a working landscape where industrial units stand alongside undeveloped parcels of land. It is a setting shaped by business rather than show, and the field shares in that practical, no-nonsense character.

The field covers 4,023 m² in total and lies within an industrial zone, so its general use is business and industry. The industrial units around it show the kind of activity already at home in this part of the village. The land has no direct road access.

A distribution agreement is in place for the field. The sale is a 1/2 share of the property.

What stays with you is the setting itself: a sizeable piece of industrial land in Palaiometocho, with working neighbours on every side. Substance over show, in a place where industry already sets the tone.
