Description

Small Development and High-Value Living

This residential asset in the prestigious Carolina Park area of Dali represents a premier opportunity for high-end custom home development in one of the most sought-after suburban locations in the Nicosia district. Falling within the Ka6 planning zone with a 90% building density and a 50% coverage factor, the property is perfectly suited for a luxury two-story villa that prioritizes expansive living spaces and modern architectural lines. In March 2026, the local real estate market has been fundamentally revitalized by the landmark January 1st tax reform, which fully abolished stamp duty on all new property contracts and removed the Special Defence Contribution on rental income, drastically improving the net position for long-term investors. Furthermore, the 2026 market is bolstered by the latest energy-efficiency grants for new builds launched on March 2, 2026, offering significant financial incentives for homeowners incorporating sustainable technologies into their primary residences. The plot's strategic advantage is significantly enhanced by being not subject to VAT, providing an immediate and substantial cost saving for the buyer. The established residential zoning and prime location within an elite neighborhood ensure a secure and appreciating asset, a standard of smart investment we have guided for 3 decades of experience.

Description Residential plot for sale in the exclusive Carolina Park area of Dali, Nicosia. This property offers a clear canvas for a high-spec private residence in a neighborhood known for its premium homes and organized infrastructure. The plot falls within Residential Planning Zone Ka6 with a building density coefficient of 90% and a coverage coefficient of 50%, allowing for a maximum of 2 floors and a height of 10 meters.
