Description
Set among homes and open parcels on the edge of the village centre, this sizeable field brings you into everyday life in Kapedes. Restaurants and cafés lie within walking distance, a place for morning coffee or a relaxed evening meal among neighbours.

The land covers 3,345 m² and sits in a residential zone, with room for a home of up to two floors. There is space here to plan a house around the way you want to live, in a setting shaped by village life.

The wider area invites you to explore. Tamasos Lake is a short drive away, as is a park, and the neighbouring villages of Kampia, Filani and Politiko are close at hand.

The field has no direct road access.

A residential plot at the heart of Kapedes, with the village and its cafés around you and Tamasos Lake a short drive beyond.
