Description
Winter evenings in Palaiometocho begin by the fireplace, in an open living and dining room made for long meals and easy conversation. This four-bedroom house stands among homes in a residential part of the village, with schools, shops and cafés a short drive away and public offices within walking distance.

A hall welcomes you in and leads to the living space and the kitchen, while a storage room and a guest toilet keep everyday life in order. The four bedrooms share a family bathroom and leave room for family, a study or guests who come to stay.

When the weather turns warm, the veranda is the place for a morning coffee or an evening meal outdoors. The house comes with a parking space, and the green surroundings of Lefkovounos are a short drive away when you want a change of scenery. The sale is for a 1/2 share of the house.

A home built around the fireplace and the rhythm of village life.
