For Sale : **€ 97,500**

Description
Close to Palaiometocho's secondary school and within the village itself, this sizeable field of 3,636 m² sits among open parcels of land and scattered homes. The village feels near, yet the land around it keeps an open, unhurried character.

The field lies in a residential zone, so there is room here for a home of up to two floors. With this much land, a house could be placed and planned with real care, shaped around the way you want to live. The land has no direct road access.

Everyday life stays within reach. The village centre is a short drive away, and so is the nature spot of Lefkovounos for time outdoors. With the school close by, mornings could start with little fuss, and the familiar rhythm of Palaiometocho is all around.

A generous piece of residential land in an established village, waiting for the home you have in mind.
