Description
In Agia Paraskevi, Lakatameia, homes stand side by side with open parcels of land, and the neighbourhood is still taking shape around them. This 641 m² field sits on residential land within that setting, with room for a home of up to three floors.

Everyday life is close at hand. Schools are within walking distance, as are supermarkets and shops, so the school run and the weekly shop could become an easy stroll rather than a chore. Lakatameia's town centre is a short drive away when you need more.

The land has no direct road access.

For anyone who has pictured building a family home within reach of Nicosia's everyday comforts, this residential field in a growing part of Lakatameia offers the space to begin. A home of your own, in a neighbourhood where schools and shops are a walk away, could start here.
