For Sale : **€ 96,000**

Description
Mazotos is a Larnaca village where homes, farmland and open plots sit side by side. Here, a residential field of 3,345 m² offers room to shape a home of your own in an unhurried village setting.

The ground has a smooth, even surface, and water, electricity and telecommunication services are available. Its residential zoning allows a home of up to two floors, so you can picture a house rising over level land, with the life of the village around it.

Everyday comforts stay within easy reach. The centre of Mazotos is a short drive away, and Larnaca International Airport is within a drive, which makes coming and going simple when you live part of the year elsewhere. The land has no direct road access.

Level residential land with services available, in village surroundings, waits for the home you have in mind.
