For Sale : **€ 94,000**

Description
Right beside Liopetri National Forest Park, this field lies among cultivated farmland in the Famagusta countryside, with the beaches only a short drive away. It is a setting where green open land meets easy trips to the sea, and the island feels at its most relaxed.

The ground is flat and even, which makes it simple to walk and to picture plans on. It is zoned for tourist use, and up to three floors may be built. Around it, farmed fields give way to scattered buildings of various kinds and wide stretches of open, unused land, so the area keeps its rural character.

Imagine mornings beside the forest park and afternoons by the water, with the coast never far away. This is an uncomplicated piece of land in a part of Cyprus where countryside and seaside sit side by side.

The land has no direct road access. The sale is for a 73% share of the field.

Forest on one side and the beaches within easy reach make a setting worth seeing for yourself.
