For Sale : **€ 86,000**

Description
Pissouri pairs village life with the pull of the coast, and this residential plot puts you right in the middle of it. The village centre is a short drive away, and Columbia Beach Resort is within easy reach for an afternoon by the sea.

The land measures 747 m² and fronts a registered road, giving it direct road access. Water, electricity and telecommunications are already available, and the residential zoning allows a home of up to two floors. Around it, homes stand alongside undeveloped parcels, creating an open residential setting.

This is room for a home designed from the ground up. You choose the layout, the materials and the finishes, and you shape a family house around the way you want to live. The Limassol–Paphos motorway is easy to reach for trips along the coast, and Paphos International Airport is about 15 km away.

A piece of Pissouri, waiting for the home you have in mind.
