

For Sale, Land, Plot, Nicosia, Kampia, 585m²

Just beyond the village of Kampia, with Tamasos
Lake a short...

For Sale : **€ 82,000**

Description
Just beyond the village of Kampia, with Tamasos Lake a short drive away, this corner plot offers the chance to shape a home around your own plans rather than settling for something ready-made. The land around it is a mix of residential homes and undeveloped parcels, giving the setting a residential, village-edge character.

The land lies within a residential zone, with room for a home of up to two floors. Its corner position gives it frontage onto the road and direct road access, a practical start when you come to plan the entrance and the layout of the house. At 585 m², it is a manageable size for a family home with thought given to how every part of it is used.

Everyday life stays within easy reach, as the village centre is a short drive away. The lake is close enough for an unhurried outing by the water whenever the mood takes you.

A corner position, a village close by and the lake within reach: a simple setting in which to picture the home you have in mind.
