For Sale : **€ 82,000**

Description
Picture an evening in Kathikas that begins with a short stroll to a village café or restaurant, with the Panagia Evangelistria Church also within walking distance. In this village in the Paphos district, a 667 m² plot on residential land offers room for a home of your own design.

The plot fronts a registered road, so it has direct road access. Around it, residential developments sit alongside undeveloped parcels, giving the setting a settled, lived-in feel while leaving a sense of openness. Its residential zoning points plainly to a house, a chance to shape every room around the way you want to live.

The coast is never far away. Coral Bay is a drive away for days by the sea, and Paphos International Airport lies about 20 km off, which keeps arrivals and departures simple.

This is a piece of Kathikas, close to village life, with space for the home you have in mind.
