For Sale : **€ 84,000**

Description
On the edge of Kampia village, close to the Tamassos dam, this residential plot of 713 m² offers room for a home of your own in a village setting within the Nicosia district.

The land is zoned for residential use, and a home of up to two floors may be built here. It is a canvas for a house shaped around the way you want to live, from the layout of the rooms to where the morning coffee is taken. The plot has direct road access along one side. Around it, homes stand alongside parcels of land still waiting to be built on, which gives the neighbourhood a gently evolving residential character.

The villages of Politiko and Pera are a short drive away, and the dam is close by to enjoy at the end of the day.

A well-sized plot on the doorstep of the village, with the waters of the Tamassos dam close at hand and space to build the home you have in mind.
