For Sale : **€ 82,000**

**Description**
A short walk from the heart of Kampia, with Tamasos Lake a short drive away, this residential plot is the groundwork for a home of your own in village surroundings. It sits in a residential setting where houses and undeveloped parcels of land share the neighbourhood, with the life of the village close at hand.

With 918 m² of residential land, there is room for a home of up to two floors. The plot has direct road access along its frontage. Starting from your own plot lets you set your design priorities from the outset: how the rooms are arranged, and how the house opens to its surroundings.

Picture an easy stroll into the village centre for your morning errands, and lazy weekend afternoons by the water at Tamasos Lake. Kampia keeps daily life simple and close by, while the lake gives you nature just beyond your door.

A village plot with a lake on its doorstep, and a home here that is yours to shape from the very first line of the plan.
