Agros, in the Limassol district, sets the scene for
this plo...

For Sale : **€ 83,000**

Description
Agros, in the Limassol district, sets the scene for this plot of 978 m², with the village centre a short drive away. Around it, a few homes sit among undeveloped parcels of land, giving the area an open, village feel rather than a built-up one.

The land lies in a touristic zone, so its general use points towards tourism, with flexible options. Within that zone, the source allows a hotel of up to three floors, a tourist village of up to two floors, or a house of up to two floors. The plot also has direct road access, which keeps arrival uncomplicated.

The neighbouring villages of Potamitissa and Kato Mylos are also a short drive away, and main roads can be reached by car, linking this corner of Agros with the wider Limassol region.

A plot with road access and a choice between a home and a tourist project, set within the village life of Agros.
