For Sale : **€ 72,000**

Description
Kathikas sets the scene for this residential plot, a piece of land just outside the village where homes and open parcels sit side by side. It is a setting with the character of village life and the coast of Paphos within reach.

With residential zoning and 608 m² to work with, the land offers room for a home shaped around your own plans, from the layout of the rooms to the way they meet the outdoors. It fronts a road along one side, giving it direct road access and making the first steps of a build simpler to picture.

Everyday life stays easy to arrange. Peyia is a short drive away for shops and errands, and a slightly longer drive brings you to the sand at Coral Bay. Paphos International Airport is about 20 km away, so trips home or visits from friends need little planning.

It is a chance to begin with a blank page, with Kathikas on one side and the beaches of the Paphos coast on the other.
