

For Sale, Land, Plot, Larnaca, Psevdas

In the village of Psevdas, among family homes
and open plots...

For Sale : **€ 71,000**

Description
In the village of Psevdas, among family homes and open plots, this residential plot offers room for a home of your own. The village church and its elementary school are a short way off, so everyday village life stays close at hand.

The land has a regular shape and a sloping surface, a setting that can suit a contemporary or a traditional design shaped around its fall. It has direct road access, and water, electricity and telecommunication services already reach it. The residential zoning allows a home of up to two floors, so there is scope for a generous family house planned your way, from the layout to the materials.

Beyond the village, Pyrga and Agia Anna are a short drive away, and Larnaca International Airport lies about 15 km off, convenient for travel and for visiting family.

A plot to start from the ground up, in a residential village setting, with every choice about the home it becomes left to you.
