For Sale : **€ 72,500**

Description
Set within the village of Xylotymvou, among established homes and the gentle rhythm of local life, this residential field offers room for a home of your own. The community council sits a short stroll away, and a school is within an easy walk, so village life unfolds right around you.

The land covers 590 m² in a residential zone where a home of up to three floors may be built. A good stretch of road frontage gives it direct road access, making arrival simple and the shape of a future home easy to picture.

Think of mornings that begin close to the heart of the village, with neighbouring Ormideia a short drive away when you want a change of scene. Around the land, the setting is residential and welcoming, the kind of place where a house quickly becomes part of the neighbourhood.

Uncomplicated, well placed and surrounded by authentic village character, this is a fine canvas for the home you have in mind.
