For Sale : **€ 67,000**

Description
Within walking distance of Paralimni Lake, this level residential plot lies in a part of town where family houses and blocks of flats sit alongside supermarkets, showrooms and offices. It is a setting with daily life close at hand, yet the calm of the water is only a stroll away.

The land is flat and even, with direct road access along its frontage, and electricity, water and telecommunications are already available. Its 648 m² give room for a home of up to two floors, shaped around your own plans and the way you like to live.

Picture the rhythm of it: a morning walk down to the lakeside, an unhurried coffee at a café nearby, then back home to rooms designed exactly as you imagined them. The groundwork of a good neighbourhood is already here, and the lake is part of everyday life rather than an occasional outing.

A new home in Paralimni can begin here, on level ground, with the lake within an easy walk.
