Description
Lythrodontas is a village with a strong local character, and this residential field sits in an area where homes already stand beside parcels of open land. Village life stays close at hand. The village centre is a short drive away, and so is neighbouring Mathiatis.

The field measures 609 m², a manageable size for a single household. Its residential zoning gives room for a home of up to two floors. Road frontage runs along two of its borders, which gives it direct road access and an easy start to any plans.

Picture your own house taking shape here, one of the homes in a growing residential area, with the rhythm of a Nicosia district village around it. The scale of the plot keeps the project grounded, and the setting gives it a sense of place.

This is an honest, well-proportioned piece of land in a village setting, with the space and the zoning to build a home of your own.
