In the heart of Akapnou, a short walk from the
village centr...

For Sale : **€ 58,000**

Description
In the heart of Akapnou, a short walk from the village centre, two houses built in 1935 carry almost a century of village life within their walls. Both are listed buildings, recognised as part of the village's heritage, and they stand together on a compact plot of 226 m² across two parcels.

Both houses need major repair. The plot has no direct road access.

What they offer is the chance to bring old rooms back to life and shape a home with genuine character, with the everyday rhythm of Akapnou close at hand. Around them, village homes sit alongside open, undeveloped parcels. For a day outdoors, Kalavasos Lake is within a drive.

Two houses with a story that reaches back to 1935, a few steps from the centre of Akapnou, waiting for someone to write their next chapter.
