Description
Village life in Lythrodontas has an easy rhythm. Supermarkets and shops are within walking distance, and the neighbouring village of Mathiatis is only a short drive away, so daily needs sit comfortably close while the setting keeps its village character.

Among residential homes, this 630 m² plot is rectangular with a flat, even surface, a straightforward canvas for planning a house from the ground up. It fronts a village street with direct road access. Water, electricity and telecommunication services reach the land.

The residential zoning allows a home of up to two floors. That leaves room to design a bespoke residence around the way you want to live: where the morning coffee is taken, how the rooms open to one another, how much of the land is kept for outdoor living.

A level site in a lived-in village, close to the shops and waiting for the home you have in mind.
