For Sale : **€ 34,000**

Description
Right in the centre of Kapedes, close to the village church, this residential field puts a future home at the heart of village life. Family homes and open parcels of land surround it, so the setting keeps its village character while life carries on next door.

The land has direct road access along its frontage and lies within a residential zone, with room for a home of up to three floors. It is a compact, central piece of ground. Picture mornings that begin with the church bells nearby and evenings when neighbours stop for a word in the street.

When you want open space, Tamasos Lake is a short drive away, with its water and green surroundings for time outdoors. The neighbouring villages of Kampia and Kataliontas are also close, widening the circle of village life around you.

A home here would sit in the middle of Kapedes, with the village gathered around it and the lake within easy reach.
