Description

High-Yield Commercial Plot in Strovolos – Strategic Acquisition for High-Value Development

Whether you are a visionary developer ready to establish a landmark project or a smart investor looking to secure a high-yield asset, this exceptional building plot in the heart of Strovolos offers the perfect blank canvas. Buying land in this established and highly accessible commercial sector provides the ultimate freedom to bring a high-profile architectural vision to life, benefited by a zoning structure that guarantees long-term value. This site is a strategic acquisition specifically suited for those who prioritize maximum ROI and high-density development in one of Nicosia's most active urban corridors.

Strategic Development and Yield Potential

Boasting a prime position within the desirable Eb3 commercial planning zone, this property is primed for immediate construction. With a 160% building density and 50% coverage ratio, the property offers fantastic versatility: it is ideally suited for a high-yield development, specifically a modern 6-story office building, retail flagship, or a sophisticated mixed-use project. The zoning allows for maximum utilization of the plot's area up to a height of 24 meters, providing a clear path for developers looking to capitalize on the high demand for premium business space to maximize yield potential in a high-value commercial hub.
