Description
Village life sets the tone in Agios Amvrosios, and this sizeable field sits close to the heart of it. It lies in a residential zone, with room for a home of up to two floors on land that already feels part of the community around it.

The land covers 4,014 m², with an irregular shape and a gentle slope, and it has direct road access along a dirt road on one side. Water, electricity and telecommunications can be connected. Around it, homes stand among other undeveloped parcels, giving the setting a sense of open ground alongside village living.

Picture a home taking shape on this gentle slope, with the village centre close by and restaurants and cafés a short drive away. Here, everyday life can unfold at the pace of the village, with the room to build a place that is truly your own.
