Description

High-Yield Development and Strategic Acquisition

This residential plot in Palouriotissa represents an elite opportunity for high-density urban development, situated in a superb location directly behind the prominent Athienitis retail corridor. Falling within the Kα3 planning zone, the property boasts a substantial building density of 140% and a 50% coverage factor, specifically designated for the erection of a modern four-storey apartment complex reaching up to 17 meters in height. In March 2026, Palouriotissa has emerged as a focal point for urban redevelopment, driven by its immediate proximity to the capital's central business district and the sustained demand for high-quality housing from young professionals and the academic community. The local real estate market in 2026 is further bolstered by the historic tax overhaul on January 1st, which included the full abolition of stamp duty and the removal of the 3% Special Defence Contribution on rental income, making this an ideal "Build-to-Rent" asset. For those seeking to capitalize on Nicosia's urban growth with a high-yield development, this plot offers a secure foundation for 3 decades of experience.

Description Plot of land behind Athienitis in Palouriotissa suitable for the erection of a four storey building. Superb location only five minutes from the town centre, close to all services, universities and the business centre. Falling within the Residential Planning Zone Kα3, the plot allows for a modern architectural design that maximizes vertical square footage in a high-demand residential area. Its position within the Nicosia Municipality ensures access to superior infrastructure and municipal services. Title deed is available.
