Description

High-Yield Residential Plot in Chryseleousa – Strategic Acquisition for High-Value Development

Whether you are a visionary developer ready to establish a landmark residential project or a smart investor looking to secure a high-yield asset, this exceptional building plot in the Chryseleousa area of Strovolos offers the perfect blank canvas. Buying land in this established and highly accessible neighborhood provides the ultimate freedom to bring your architectural vision to life, surrounded by a community that guarantees long-term value. This site is a strategic acquisition specifically suited for those who prioritize maximum ROI and strategic development in one of Nicosia's most sought-after districts.

Strategic Development and Yield Potential

Boasting a well-positioned surface in the desirable Ka4 residential zone, this property is primed for immediate construction. With a 120% building density and 50% coverage ratio, the property offers fantastic versatility: it is ideally suited for a high-yield development, specifically a modern 3-story residential building or a sophisticated apartment complex. The zoning allows for maximum utilization of the plot's area, providing a clear path for developers looking to capitalize on the high demand for contemporary urban housing and maximize yield potential in a high-value residential hub.
